

Hand Protection

Metalmix Fiber Series

Item No: NJC3232

Description:

13-gauge HPPE/steel/black polyester/spandex seamless knit liner featuring black sandy foam nitrile palm coated.

Key selling points

EN388 Level D cut resistance protection with lightweight and dexterity.

Staple fiber knitted liner, hairy surface feels more like cotton, and fit hands better.

Great sweat evaporation performance, help working hands stay dry and cool

The coating combines better with staple fibers, more durable for long time use.

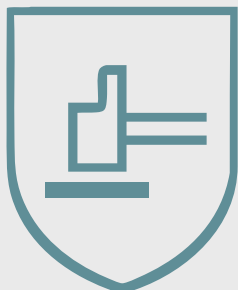

The latest Super Grip® foam sandy nitrile coating provides strong grip and abrasion resistance with good oil-repellency.

Foam technology makes glove soft and elastic, more comfortable for long-time wear.

Certification

EN388:2016
